## REMARKS:

It is noted with great appreciation that the Examiner considers claims 1-21 as allowed. However, the Office Action has objected to the drawings for various informalities. The office Action has objected to the specification and claim 1 also because of informalities. In response thereto, Applicants have amended the drawings by correcting the references numbers in Figures 2B, 3B and 3D. Applicants have also amended the various editorial errors in the specification and claim 1 according to Examiner's suggestions. It is believed that no new matter is added by way of these amendments made to the claims or otherwise to the application. Upon entry of the amendments in this response, claims 1-21 remain pending in the present application.

In light of the foregoing amendments and for at least the reasons set forth hereinbefore, Applicants respectfully submit that all objections and/or rejections have been traversed, rendered moot, and/or accommodated, and that the now pending claims 1-21 are in condition for allowance. Favorable consideration and allowance of the present invention and all pending claims are hereby courteously requested. If, in the opinion of the Examiner, a telephonic conference would expedite the examination of this matter, the Examiner is invited to call the undersigned.
